

PM<sub>10</sub> emissions, the reporting requirement begins with the reporting of calendar year 1988 emissions.

(2) For carbon monoxide, any facility that actually emits a total of 907 metric tons (1000 tons) per year or more.

(3) For lead or lead compounds measured as elemental lead, any facility that actually emits a total of 4.5 metric tons (5 tons) per year or more.

(b) Annual emissions reporting requirements apply only to emissions of each pollutant from any individual emission point within the facility that emits:

(1) For particulate matter, PM<sub>10</sub>, sulfur oxides, VOC and nitrogen oxides. 22.7 metric tons (25 tons) per year or more. For particulate matter, the reporting requirement ends with the reporting of calendar year 1987 emissions. For PM<sub>10</sub>, the reporting requirement begins with the reporting of calendar year 1988 emissions.

(2) For carbon monoxide, 227 metric tons (250 tons) per year or more.

(3) For lead or lead compounds measured as elemental lead, 4.5 metric tons (5 tons) per year or more.

[44 FR 27569, May 10, 1979, as amended at 44 FR 65070, Nov. 9, 1979; 52 FR 24714, July 1, 1987]

#### **§ 51.323 Reportable emissions data and information.**

(a) The State shall submit in the annual report the following emissions data and information:

(1) Emissions of particulate matter, sulfur oxides, carbon monoxide, nitrogen oxides, and VOC as specified by AEROS Users Manual, Vol. II (EPA 450/2-76-029, OAQPS No. 1.2-039) to be coded into the National Emissions Data System point source coding form.

(2) Emissions of lead or lead compounds measured as elemental lead as specified by AEROS Users Manual, Vol. II (EPA 450/2-76-029, OAQPS No. 1.2-039) to be coded into the Hazardous and Trace Emissions System points source coding forms, and

(3) Emissions of PM<sub>10</sub> as will be specified in a future guideline.

(b) Such emissions data and information specified in paragraph (a) of this section must be submitted on either paper forms, punched cards, or magnetic tape in the format of the NEDS

point source coding forms or the HATREMS point source coding forms as appropriate.

(c) The emissions data and information specified by paragraph (a) of this section must be submitted in the annual report for any point source for which one or more of the following conditions occurs:

(1) A source achieves compliance at any time within the reporting period with any regulation of an applicable plan,

(2) A new or modified source receives approval to construct during the reporting period or begins operating during the reporting period,

(3) A source ceases operations during the reporting period, or

(4) A source's emissions have changed more than 5% from the most recently submitted emissions data.

(d) If, as determined by the State and the Regional Administrator, the emissions from any point source have not changed more than 5% from the most recently submitted emissions data, the State shall update the year of record of the previously reported data and information specified by paragraph (a) of this section.

[44 FR 27569, May 10, 1979, as amended at 52 FR 24714, July 1, 1987]

#### **§ 51.324 Progress in plan enforcement.**

(a) For each point source, the State shall report any achievement made during the reporting period of any increment of progress of compliance schedules required by:

(1) The applicable plan, or

(2) Any enforcement order or other State action required to be submitted pursuant to § 51.327.

(b) For each point source, the State shall report any enforcement action taken during the reporting period and not submitted under § 51.327 which results in civil or criminal penalties.

#### **§ 51.326 Reportable revisions.**

The State shall identify and describe all substantive plan revisions during the reporting period of the applicable plan other than revisions to rules and regulations or compliance schedules submitted in accordance with § 51.6(d). Substantive revisions shall include but are not limited to changes in stack-
